USAg ing Associate Membership
for Providers and Partners

When the Aging Network comes together, there’s not much we can’t do to support older adults and caregivers!

USAg ing’s Associate Membership category helps strengthen connections and boost information sharing and learning across the Network. While USAg ing’s primary members are Area Agencies on Aging and Title VI Native American Aging Programs, we appreciate the invaluable roles that providers and other mission-driven nonprofits play in ensuring that older adults and people with disabilities can live with dignity and choices in their homes and communities for as long as possible—and we want to support your work, too!

Benefits

For dues of $250 per year, USAg ing Associate Membership benefits include:

• Monthly USAg ing newsletter with information on emerging trends, new resources and other news you need to know

• USAg ing’s federal policy Advocacy Alerts, so you can know when to take action on critical aging policy issues to help you better serve older adults, people with disabilities and caregivers

• Notification of upcoming webinars, new reports and new campaigns

• Discounted educational opportunities like USAg ing’s Annual Conference and Tradeshow and the Aging Policy Briefing

Eligibility

Is your organization a nonprofit serving the health and well-being of older adults, people with disabilities and/or caregivers? If so, your organization may be eligible to join USAg ing as an Associate Member!

Local and state direct service providers, advocacy groups, foundations, non-AAA-related governmental entities and academic entities/partners are all eligible to join.

About USAging

USAging is the national association representing and supporting the network of Area Agencies on Aging and advocating for the Title VI Native American Aging Programs.

Our members help older adults and people with disabilities throughout the United States live with optimal health, well-being, independence and dignity in their homes and communities.

USAging and our members work to improve the quality of life and health of older adults and people with disabilities, including supporting people with chronic illness, people living with dementia, family caregivers and others who want to age well at home and in the community. Together, we are ensuring that all people can age well.

Our members are the local leaders that develop, coordinate and deliver a wide range of home and community-based services, including information and referral/assistance, case management, home-delivered and congregate meals, in-home services, caregiver supports, transportation, evidence-based health and wellness programs, long-term care ombudsman programs and more.

USAging is dedicated to supporting the success of our members through advancing public policy, sparking innovation, strengthening the capacity of our members, raising their visibility and working to drive excellence in the fields of aging and home and community-based services.
