Data shown in this report were gathered through the 2022 National Survey of Area Agencies on Aging conducted by USAGing in partnership with the Scripps Gerontology Center at Miami University. The survey helps track the trends and new directions in a growing and evolving Aging Network. The full survey results are available in the 2023 chartbook: *More Older Adults, More Complex Needs: Trends and New Directions from the National Survey of Area Agencies on Aging,* available at www.usaging.org/aaasurvey.

**About Indiana’s AAAs**
- Ten out of 15 of Indiana’s AAAs completed the survey.
- All but one responding AAA is an independent nonprofit agency and one is part of a university.
- Two of Indiana’s responding AAAs serve predominantly rural areas and the rest serve a mix of urban, suburban and rural service areas.

**Services and Supports**
All AAAs provide the core supportive services required by the Older Americans Act (OAA), including nutrition (home-delivered and congregate meals), disease prevention and health promotion, caregiver services and elder rights. AAAs also provide innovative services that are tailored to meet local and regional needs by supporting the health and independence of older adults in their communities. The most common additional services provided by Indiana AAAs, whether directly or through a contracted provider, are below.

- Assessment for long-term care service eligibility
- Care transitions services
- Case management
- Other meals/nutrition program
- Legal assistance
- Ombudsman services
- Options counseling
- Telephone reassurance/friendly visiting
- Transportation services

**Populations Served**
AAAs often serve populations in addition to those who are 60 and older. In Indiana, the most commonly served populations under the age of 60 are consumers with a disability, chronic illness or advanced illness and consumers with dementia of all ages. Indiana AAAs are also commonly serving caregivers of all ages.

---

1 Please note that if there is significant variation across AAAs within a state, it is possible that non-respondents differ from respondents in ways that would change overall findings if they had responded. Not all AAAs answered every question.
Indiana Area Agencies on Aging State Data Summary

Budget and Staffing
Details about the median budget (2021 fiscal or calendar year) and staff size of the Indiana AAAs that responded to the survey are below.

- The median budget of Indiana AAAs is $8 million, with a range of $3.6 million to $38 million.
- The most common sources of funding for Indiana AAAs are the OAA, COVID-19-relief funds, Medicaid, grant funds and state funds.
- The median number of full-time staff is 102, with a range between 37 and 320.
- The median number of part-time staff is 21, with a range between three and 96.
- The median number of volunteers is 100, with a range between 16 and 507.

Other AAA Roles
- All responding Indiana AAAs lead or are a part of an Aging and Disability Resource Center (ADRC).
- Nine responding Indiana AAAs serve as the local State Health Insurance Assistance Program.
- Three responding Indiana AAAs operate a Long-Term Care Ombudsman Program.

Participation in Medicaid
All responding Indiana AAAs are contracting with Medicaid. The most common services that AAAs in Indiana provide through Medicaid are:

- Assessment for long-term services and supports eligibility
- Ongoing case management/care coordination/service coordination
- Options counseling

About Area Agencies on Aging
Area Agencies on Aging (AAAs) across the country help ensure that older adults and people with disabilities live with optimal health, well-being, independence and dignity in their homes and communities by providing a coordinated system of services and supports. Established by the federal Older Americans Act in 1973, there are more than 600 AAAs nationwide. Learn more about AAAs at www.usaging.org.
