INTRODUCING
The Disability Information and Access Line

The Disability Information and Access Line (DIAL) is a new federally funded hotline that helps people with disabilities get vaccinated. DIAL connects you with essential services, including COVID-19 vaccine and booster information, transportation services, housing support, and more.

Do you or someone you know have questions about the COVID-19 vaccine? DIAL staff are ready to answer your vaccine questions, assist in making vaccination appointments, and put you in touch with local services to make getting the vaccine safe and convenient for you.

DIAL can also connect you with local support services including:

- COVID-19 information
- Independent living
- Transportation
- Skills training
- Peer counseling
- Voting
- Education
- Employment
- Disability Rights
- Vocational Rehabilitation
- Food access
- and more!

DIAL is funded by the U.S. Administration for Community Living and the Centers for Disease Control and Prevention, and is operated by USAging in collaboration with organizations serving people with disabilities. The power of DIAL comes from decades of expertise in information and referral services and strong partnerships with service providers in communities across the country.

Call 888-677-1199 or email DIAL@usaginganddisability.org to connect with our staff today. Hours of operation are Monday through Friday from 9:00 a.m. to 8:00 p.m. ET. DIAL is available in all languages and specialists are trained to work with deaf callers using American Sign Language and video relay service (VRS).

DIAL is comprehensive, accessible, and easy to use.
